- Good how gets students involved by asking questions on how to approach/solve the problem.

- He always answered emails very quickly, was thoughtful, and really cared to make sure that students understood each step of every problem before moving on! Very accessible outside of class & made going to discussion enjoyable.

- He explains the information pretty well, but personally he goes a little too fast sometimes. Math 10C was a very heavy subject so its a little hard to process all the heavy new information given while continuing a problem.

- Helped with the course very much.

- I came out of discussion classes with a better understanding of how to do the problems I was struggling with because he was very good at not just explaining the problem but explaining how to do the problem step by step.

- Sawyer helped me so much throughout the semester both during discussion sections and office hours. Rather than give me the answer he was really good at giving me the guidance I needed while making sure I understood the material. He also helped with just basic study strategies which I think is extremely important, especially since a lot of the students taking this course are freshmen.

- Thanks a lot!

- We love big sawyer
